

Viduranga Sampath

BET (Hons) Special in Materials and Process Engineering

Resident: Kalawana | Ph: +94 785528431 | LinkedIn: [Viduranga Sampath](#)
Email: vidurangasampath74@gmail.com |

Materials and Process Engineering graduate with professional experience in Quality, Material Sourcing, Supplier Development, Data Analytics, and Process Improvement within the manufacturing industry. Currently working as an Executive – Material Sourcing in the QHES function at Jiffy Products Sri Lanka, with experience in raw material quality management, supplier performance evaluation, and data analysis. Skilled in Microsoft Power BI and Excel, with practical experience developing digital dashboards and supplier booking solutions to improve operational efficiency, reduce manual processes, and support data-driven decision-making.

Experience

Executive – Material Sourcing | QHES

[Jiffy Products Sri Lanka](#) - Nikewaratiya

26 Nov 2025 - 2026 – Present

- Responsible for raw material sourcing and incoming material quality management, including supplier performance monitoring, material quality evaluation, supplier development, and coordination with internal teams to ensure required quality standards. Analyze raw material quality data and support continuous improvement initiatives through data-driven decision-making and digitalization projects.

Quality Assurance - Intern

[Atlas Axilla \(PVT\) LTD](#) - Welisara

01 Aug 2024 - 31 January 2025

- Gained hands-on experience in QA/QC through defect classification, flow chart creation, risk assessments, and root cause analysis. Supported quality improvements and developed 3D drawing skills for process documentation. Participated in knowledge-sharing sessions to deepen understanding of quality standards in manufacturing.

Internship Trainee Teller & Cashier - Intern

[Peoples Bank](#) - Kalawana

01 JAN 2020 - 31 APR 2021

- Completed a one-year internship as a Teller & Cashier at the Kalawana Branch of People's Bank under a program for Advanced Level qualified students awaiting university admission. Gained practical experience in banking operations, customer service, cash handling, and day-to-day financial transactions.

Education

BET (Hons) Special Materials and Process Engineering

University Of Kelaniya

13 July 2021 - 13 July 2025

Relevant Coursework: TPM, Lean,, Manufacturing Process, Machine Design, Autocad, Materials Processes in Industry, Nanoscience and Nanomaterials, Electronics, Statistics, Materials Characterization and Testing Laboratory.

Engineering Technology

R/ Kalawana National School

2019

A/L Exam - 1A & 2B (Ratnapura District rank 27 ET stream)

Skills

- Technologies & Tools:** TPM, Lean Six Sigma, Office 365, SolidWorks, AutoCAD, Machine (Lathe machine, Milling Machine & Power Tools)
- Soft Skills:** Leadership, Teamwork, Time Management, Creativity, Active listening, Adaptability.

Research Publications

- **A Comparative Analysis of Recovered and Commercial Carbon Black in Natural Rubber Composites: Influence of Particle Dispersion and Ash Content on Mechanical Properties.**
Presented at the 4th International Research Conference-2025, Institute of Technology, University of Moratuwa,
- **Developing a Rubber Vulcanizate for the Tread Layer of Solid Tires Using Recoverable Carbon Black as Filler.**
Presented at the 3rd International Multi-Disciplinary Desk Research Conference 2025, University of Kelaniya, Sri Lanka.

Projects

- **Developing a Rubber Vulcanizate for Thread layer of Solid Tire Using Recoverable Carbon Black as Filler** FYP Individual
Time Planning, Material Selection & Formulation, Research & Data Analysis, SOP Creation, Sustainability Assessment, Technical Documentation
- **An automated dustbin which is open automatically (Smart dustbin).** University Group project
Designed and developed an automated dustbin that opens its lid using sensor-based motion detection, promoting touchless and waste disposal.
- **Vehicle Identification and Logging System for Smart University** University Group project
Developed a system to automatically detect vehicle number plates at the faculty gate and log the data into a database for secure and efficient access control.

Dashboards Developed:

Developed multiple **Microsoft Power BI dashboards** to digitalize organizational data, simplify data analysis, improve information visibility, and support management in making **data-driven decisions**.

- **Raw Material Incoming Analysis Dashboard** – Monitoring and analyzing incoming raw material quality and supplier performance.
- **Production Quality Dashboard** – Analyzing production quality performance and quality trends.
- **HR Information Dashboard** – Visualizing and analyzing employee and workforce information.
- **Planning Information Dashboard** – Supporting analysis and monitoring of planning-related information.
- **Production Department Dashboard** – Providing data visualization and performance insights for the Production Department.

Supplier Quick Booking Application

Developed a supplier booking application to enable suppliers to reserve their raw material delivery time slots before arriving at the company premises. The system was designed to improve supplier flow, reduce waiting time and congestion, and support the smooth and timely operation of the raw material intake process.

Certificate

- | | | |
|--|---------------------------|---|
| • Best Project for Education | LEO CLUB |  |
| • Educational Software Project | Ministry of Education |  |
| • Certification in Information Technology | INFOBIT LANKA |  |
| • Certification of Internship | Atlas Axilla |  |
| • Certification of Research Conference | ITUM-IRC |  |
| • Certification of Research Conference | UOK-DRC |  |
| • Advanced Data Analysis in Microsoft Power BI | NEXUS Universal Education | |

Extracurriculars and Leadership

Leo Club of University of Kelaniya - Term 22

- Finance Coordinator - INSPIRED FUTURE 2023 (Best project for education during the term)

Inventors Club of University of Kelaniya - Term 24

- Member

Engineering Technology Students' Association - Term 23

- Organization Coordinator - The Destination 2.0
